

Solar Battery Solution for Houses

EcoFlow PowerOcean Single-phase

Safety and Power Independence in Every Charge

Reliable Power Independence. Made Tangible.

Up to 6kW Output Backup Power

The EcoFlow PowerOcean equips you with up to 6kW of continuous off-grid power. Independence isn't just about energy; it's about continuity during power outages, getting all essential home appliances backed up at once, and ensuring an uninterrupted lifestyle. Feel the power of independence.

Up to 12kW PV Input

Capture more solar energy from your rooftop—powering your home and charging your battery faster, all in one system.

Uncompromising Efficiency. Steady Performance.

90V MPPT Charger Controller

Experience uncompromised efficiency across all weather conditions. With PowerOcean's built-in 90V MPPT charge controller, you can expect superior performance, day in and day out.

AFCI Protection

AFCI protects the branch circuit wiring from dangerous arcing faults that could initiate an electrical fire.

Remotely scheduled OTA updates anytime

Without interrupting the power system.

PowerOcean Battery Pack

LFP Performance. Beautifully Powered.

5kWh

Expandable to 60kWh*
(With a maximum of three inverters in parallel.)

6000+

Charge Cycles

100%

Depth of Discharge

LFP

Battery Chemistry

15 Years

Official Warranty

Enhanced Safety and Reliability.

Parallel connections avoid the mutual influence of batteries. The malfunction of one battery doesn't affect the others. And the new battery is perfectly compatible with the old one.

Integrated BMS in every pack, smartly monitor and prevent risks and improve battery performance.

Fire prevention module in every pack to detect battery temperature and is immediately activated when it's over 170°C.

The auto-heating module automatically activates during cold weather conditions to ensure battery functioning below -20°C.

Effortlessly Scalable. Unquestionably PowerOcean.

Start Small. Kickstart from 1 Battery.

Built-in DC-DC converter in each battery pack allows our single-phase hybrid inverter to operate with even one pack simply.

Your Energy Needs. Your Call.

Start with a single 5kWh battery pack, up to 60kWh, and watch your power solution expand alongside your needs.

Old Batteries. New Life.

Mixing different battery capacities can be risky. PowerOcean's advanced paralleled connection allows you to add new batteries perfectly with existing units.

Plug and play

IP65-Certified for Ultimate Protection

EcoFlow PowerOcean features an IP65 certification, ensuring it stands strong against dust ingress and is resistant to low-pressure water jets from any direction.

Installation Option Ready for Easy Outdoor Installation

Embrace the outdoors with confidence, PowerOcean is designed to meet the critical requirements of the newly established PAS 63100:2024 standards, ensuring the highest safety performance level. This compliance makes PowerOcean ideal for outdoor installations, giving you placement options without compromising safety or efficiency.

Accessories

EcoFlow Gateway (Single-Phase)

EcoFlow Gateway supports 55A for true whole-home backup, connects directly to your main panel for faster installation, and accepts multiple energy inputs for flexible, reliable power.

Emergency Stop Button

Designed to achieve rapid shutdown to cut off the power supply of the entire system.

EcoFlow App and Web Portal

EcoFlow App and Web Portal for End-Users

- Intuitive power flow monitoring
- Say goodbye to high energy bills with Self-Powered Mode
- Viewing power generation and consumption data through an application
- Customise the system's working mode and parameters

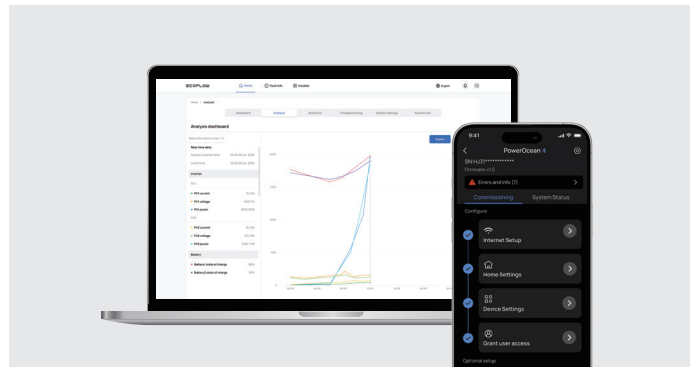

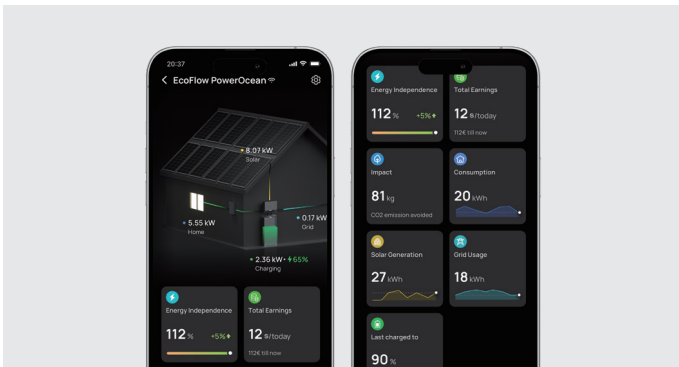

Scan QR code to download

EcoFlow Pro App and Web Portal for Installers

- Ultra-fast 3-step commissioning process
- Comprehensive map view of authorised systems
- Comprehensive and detailed data to assist you in system fault analysis
